

## M8 female 90° A-cod. with cable

PUR 4x0.25 ye UL/CSA 20m

## **⚠ NOTICE ⚠** PRODUCT IS DISCONTINUED. PLEASE HAVE A LOOK AT THE ALTERNATIVE PRODUCTS.

Female 90°

M8, 4-pole

Art-No. 7005 - M8 Lite - (plastic hexagonal screw) on request

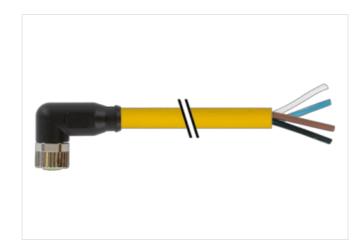

with cable sleeves

Plastic housings with good resistance against chemicals and oils.

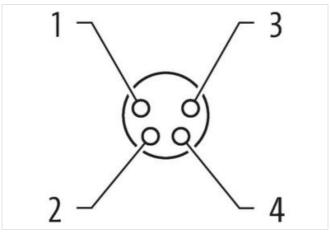

The resistance to aggressive media should be individually tested for your application. Further details on request. Further cable lengths on request.

| Additional condition temperature range           | depending on cable quality                                                                                                                            |
| Important installation notes                     | aspending on subsequanty                                                                                                                              |
| •                                                |                                                                                                                                                       |
| Note on strain relief                            | Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties.                                                   |
| Note on bending radius                           | <b>Attention:</b> Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. |
| Conformity                                       |                                                                                                                                                       |
| Product standard                                 | DIN EN 61076-2-104 (M8)                                                                                                                               |

| Conductor type (wire)                            | Strand class 5                                                                                                                                        |
| Nominal voltage AC max.                          | 300 V                                                                                                                                                 |
| Current load capacity (standard)                 | to DIN VDE 0298-4                                                                                                                                     |
| Current load capacity min. wire                  | 3,6 A                                                                                                                                                 |
| Electrical resistance line constant wire         | 79 Ω/km @ 20 °C                                                                                                                                       |
| AC withstand voltage (wire - wire)               | 2 kV @ 60 s                                                                                                                                           |
| Power frequency withstand voltage (wire - acket) | 2 kV @ 60 s                                                                                                                                           |
| Min. operating temperature (static)              | -30 °C                                                                                                                                                |
| Max. operating temperature (fixed)               |                                                                                                                                                       |

| Operating temperature max. (dynamic) | 80 °C                                                |
|--------------------------------------|------------------------------------------------------|
| Flame resistance                     | UL 1581 § 1100 FT2   IEC 60332-2-2   UL 1581 § 1090  |
| chemical resistance                  | Good, application-related testing                    |
| Gasoline resistance                  | Good, application-related testing                    |
| Oil resistance                       | Good, application-related testing   DIN EN 60811-404 |
| Bending radius (fixed)               | 5 x Outer diameter                                   |
| Bending radius (dynamic)             | 10 x Outer diameter                                  |
